Note to Teachers:

1. This document was created to show how some teachers might incorporate existing FluentKey videos into their thematic units. It is a work in progress that will be updated as more videos are added to our library. There are many FluentKey videos that are not included here, as they do not neatly fit into any of these themes. Please do a search on FluentKey if you are looking for a video that is not included among the topics listed here. Pro users can also request a video on a specific topic.
2. The levels given for each topic are merely suggestions. You might find that you are able to use a unit that is included for a level above or below the class you will be teaching. In addition, there is some variety in the proficiency level of the videos that have been included for each theme. (In most cases the more difficult videos are found at the bottom of the list.) You might use more challenging videos as enrichment or support students by...
 - Pre-teaching important vocabulary
 - Allowing students to first watch the video with subtitles

- Allowing your students to slow the speed
 - Eliminating/modifying questions
3. Units for advanced levels (4 and 5) will be added in the coming weeks.
